2018

A LETTER FROM OUR CO-CHAIRS

As we look back on the 2018 Asbury Park Music + Film Festival, there were countless highlights on the stages and screens that created an incredible buzz in the city. Throughout the weekend, more than 20,000 music + film fans experienced a taste of the world-class talent that included An Evening with Danny DeVito, Rock & Roll Hall of Fame drummer John Densmore of The Doors, GRAMMY®-award winning artist Wyclef Jean and sensational performances from Gov't Mule, Michael Franti, Sublime with Rome and others. The APMFF also proudly screened numerous films, two world premieres, and hosted influential panel discussions which all garnered global media attention for Asbury Park.

Most importantly, the APMFF benefits music education and the youth of Asbury Park, with proceeds funding Music Saved My Life youth programs and the new Lakehouse Beat Bus mobile recording studio. Thanks to the generosity of partners including the Asbury Park Press and RWJ Barnabas Health, significant awareness and funding were delivered to assist one of the most challenged youth communities in the country.

The following pages recap some of the memorable moments from this year's events, which will be talked about for years to come. We thank you for your support and commitment to the Asbury Park Music + Film Festival.
